ACKNOWLEDGEMENT

I understand that MicroNOC Inc. provides Clean Virtual Power Station (CVP™), which is owned, operated and maintained solely by MicroNOC Inc., to this facility. CVP™ is a Grid-Qualified Energy Balance Resource consisting of energy management system, energy storage system and optional solar photovoltaic under the full compliances with the mandated requirements of utility and grid operator. MicroNOC shall be responsible for complying with such requirements and for obtaining utility interconnection approval BEFORE delivering CVP™ to this contracted site. I further understand that this service requires customer's 15minute interval data, via green button sharing data or other compatible data, to be provided by the customer. This Service Registration is a legally binding service agreement for a minimum five (5) years with terms and conditions set forth herein.
